**Tariff the Center of Struggle.**

A perusal of the "literature" sent out daily by press agents of both Mr. Taft and Mr. Roosevelt reveals that these candidates for the honor of leading their party are making a lot of noise and kicking up a lot of dust about everything except the one thing that is going to be the real issue of the coming campaign, namely, the tariff.

All the Democratic candidates are not only willing but anxious to tell the people where they stand on the tariff. Look to the opposition headquarters for a discussion of this vital subject and you are greeted with a silence so thick that it could be cut with a knife. Mr. Roosevelt is busy trying to arouse the people with the "recall of Judges" issue, and Mr. Taft is doing his best to standpat. The Democrats, on the other hand, are citing facts and figures to drive home the one great truth that the cause of the present high cost of living in this country is due to the high tariff wall, and to that alone.

So apparent has it become that the tariff trusts have been using the tariff all these years as a weapon to gouge profits out of the consumers of the land, that it is next to pathetic to hear the protectionists in Congress still shouting, as they occasionally do, that to remove the tariff, or reduce the rates of the present law, would take away the "protection for the American working man." Protectionist orators in both Houses of Congress, driven to desperation by the knowledge that the people at last understand the real issue, are making a last frantic effort to drag out the old, tattered Bogey man of "Competition with the pauper labor of Europe," in the hope of making the voters once more swallow the bait. But the tariff will not down, and the protectionists' cries are becoming weaker and weaker.

The Democrats investigations, which were so much derided when they were first set into operation taught lessons which are daily sinking deeper and deeper into the minds of the people. The light thrown on the methods of the steel trust by the Stanley committee, the exposure of the rottenness in the administration of the agriculture department by the Moss committee; the shameful conditions in the woolen industry as brought out by the Rules Committee investigation; the petty manipulation of public moneys in the State Department, as shown by the inquiries of the Hamlin committee, and the various other revelations by the Democrats of the House, all revealing that wherever the light was thrown maladministration inefficiency and actual graft lay exposed all have served to convince the people that the Democrats not only have proven worthy of the trust placed in them a year ago but that they are worthy of those "graver responsibilities" which Speaker Champ Clark said the party would prove itself capable of carrying.

The battle of next November is going to center around the tariff which is the mother of all the evils that have grown up under the present system despite the efforts of the protectionists to sidetrack that question and bring less important issues to the front.

**Substitute for Rubber.**

One of the many proposed substitutes for rubber is obtained from the soya or Manchurian bean, and is being introduced from Japan and the East Indies into other countries. A rubber like product that can be vulcanized is obtained by treating the bean with nitric acid, alkalies and great heat.

**FOR WOMEN ONLY.**

That is the nature of Dr. Pierce's Favorite Prescription—the one remedy for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots. Dr. Pierce tells its every ingredient on the bottle-wrap. Prominent physicians and some of the best medical authorities endorse these ingredients as being the very best known remedies for ailments and weaknesses peculiar to women.

Mrs. Coffey.

This is what Mrs. Gussie D. Coffey, of Longstreet, Ky., says: "I feel it my duty to write and tell you what your medicines have done for me. I was a great sufferer for six years from a trouble peculiar to women, but I am thankful to say, after taking four bottles of your 'Favorite Prescription' I am not bothered with that dreadful disease any more. I feel like a new woman. When I first wrote you for advice I only weighed 115 pounds—now I weigh 125." "I thank you very much for your kindness. You have been as a father to me in advising me what to do, so may God bless you in every effort you put forth for good. I hope this testimonial will be the means of some poor suffering woman seeking health."

Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman—single or married ought to know.
